INTIMATIONS.

TO THE EDITOR OF THE "DAILY PRESS." Sig.—Will you please to publish the enclosed ARRISON THEATRE. Engineer Surveyor at Rangoon, and his report upon it, a copy of which I likewise enclose, as the writer of the letter, is we have good proof, quite capable of spreading unfounded reports respecting the stenmship Fitzpatrick and those on board het, which it would be almost impossible to disprove even if those concerned heard them, a perusal of the annexed letters will enable the reader to judge of the truthfulness of the author, as shown by the report of the Government Surveyor. The Performance will commence with SELBY's correspondence is one that affects all shipowners and marine engineers, and my sole object in publishing it is to show that men can be found who will allow their personal feelings to exceed their discretion and the incalculable injury that can Clarionet Solo be done to a vessel through such indiscretion .- Theme and Variations

DAVID KYLE, Chief Engineer steamship Fitzpatrick.

Penang, 8th January, 1878. MR. LAYROURNE. Sin,-I believe it to be no more than my duty to inform you D. Kyle, chief engineer of the above named steamer, has on an extra weight

made fast to the lever of the safety valve in excess to what you granted him in October last. He is frequently in the habit of carrying 85lbs. steam, being 5lbs, more than you granted. The boiler lost four inches of water in twelve hours on the 26th Docember last at anchor i Rangoon with no fires. You may imagine what it would lose with 30lbs. pressure. When surveyed in May, 1877, Kyle was instructed to get three more stays put in the por

after end of the boiler, which order he evaded, so he tells me with impunity.—Your obedient servant,
(Signed) FRED. A. HITCHCOCK, late second Engineer, Post Office, Penang. Captain John Mack, Mester Attendant-in-Charge

Rangoon, 19th January, 1878. requesting me to inspect the boiler of the steam- THE Company's Steamship ship Fitzpatrick for the purpose of of ascertaining if the information given in Mr. F. A. Hitchcock's letter dated Penang 7th instant is correct, this morning I went on board the steamer and have the honour to report as follows :--The boiler was full of water and therefore I could not enter it, but this I do not deem it necessary should be done under the circumstances. With reference to Mr. Hitchcock's statement that the engineer, Mr. D. Kyle, is in the habit

ment. The valves I find are now loaded to blow freely at 35lbs. pressure according to my orders as per letter dated October 23rd, 1877, a copy of which you will find in your office. With what Mr. Hitchoook writes about the stays these I examined in Oot, last and I was satisfied they were in order then or I would not have granted a renewal of the steamer's certificate. I examined the opgineer's log and find the entries there made show the steamer carried for

of carrying Solbs, this I believe is a misstate-

exceed the latter. The engineer, Mr. Kyle, and Capt. Humphries both state positively that a pressure never exceedingly 30 lbs. has ever been carried on the boiler since October, and I am inclined to believe In my opinion Mr. F. A Hitchcock has given the information he has done through spits, having been discharged from the Fitzpatrick, where

formerly he was employed as a second engineer. had it been otherwise he would have given the information when in the employ.—Your obedient (Signed) DANIEL LATBOURNE, Surveyor and Examiner.

These notes were written in Russian, and it will occur to Captain Burmaby's correspondents that if the handwriting was anything like that in which he practices the English language, the Russians would not greatly profit by his charitable offices. But evidence was forthcoming that they had made out the writing, and, what is more camericable still the signature. The knowledge that the author of the "Ride to Khiva" was with the retreating army added to the rest with which the Russian officers followed on its track. Poor Radford, his soldier-servant, who was buried last week at Dover, leaves a wife and five children; with the care of whose future Captain Burnaby has charged himself Maufair.

The attention of owners, agents, and charterers of steamers is drawn to the provisions of The Post Office Ordinance, 1876, which comes into force on the 23rd instant. Under the old Ordinance no notice was required of the departure of a vessel if not advert

fised, nor of departures for Canton or Macao. Notice is now required of any departure, though with regard to sailing ships, the old rule will practically remain in force, that notice need not be sent unless asked for. Section XXV, requires that the first notice be sent to the Post Office. In the case of steamers plying regularly or on

fired days, notice of any change in the day or hour will be sufficient. Stamped correspondence may still be sent on beard any vessel after the Mail is closed at the The Postmanter-General takes this apportunity of calling the attention of firms to the fact that

any such words as Despatches will close at 11 A.M. added to the advertisement of a vessel are illegal. Army or Navy, Non-commissioned Officers (but not Warrant Officers, viz., Assistant Engineer, Gunner, Boatswain, or Carpenter), Army Schoolmesters (not Superintending or First Class) or Schoolmistresses may send half-ounce letters to the All Parcel Pa kages should be marked to address United Kingdom vid Southampton by British Packet for one penny; or via Brindisi by British Packet for three pence. Hongkong stamps will prepay this class of correspondence exactly the same as Imperial Stamps.

Boldiers' and Sailors' letters are, however, charged as ordinary letters if they do not conform to the following regulations :--1.-Not to exceed half an ounce. No double. letters are allowed. 2.—If from a Soldier or Sailer, his class or

description must be stated in full on the letter. and the Commanding Officer must sign his name, with name of Regiment, or Ship, &c., in 3.—If to a Soldier or Sailor, his class or description must be stated in full, with name of Regiment, or Ship, &c., in full.

Many boxes of letters are received at the Poss Office not sealed, that is to say, the box it fastened with sealing wax, but there is no impression of a seal. The attention of boxholders is called to the necessity of carefully sealing such boxes with book or receipt with them. The omission of the latter precaution leaves a doubt as to whether the contents of the box ever reached the Post Office, the omission of the former, as to whether part of them might not have been ab-

stracted for the sake of the Postage Stamps.
